ANZ Building
5 Katherine Terrace
Katherine NT

Attention John

Please find attached the analysis report in regards to the samples taken from the ANZ Building 5 Katherine Terrace Katherine for testing so as to identify the presence, or absence, of asbestos contamination.

As can be seen by the report all samples tested have shown that there is no presence of asbestos.

As discussed it would be reasonable to assume that as both the ANZ Building and the TIO Building were constructed in conjunction any sampling from the TIO Building would produce the same results.

If you have any enquiries or further concerns please don't hesitate to contact me I would only be happy to assist in any way further.

Regards
Ian Drennan
